A Whole-of-School eSafety Solution

DiGii@School provides students in Years 1-6 with an evidence based (Be You accredited) and developmentally progressive approach to cyber education. While Years 1-4 have access to teacher-led learning content, Year 5 and 6 students put their accumulated skills to into practice on a live and immersive, fully automated learning platform.

With parents as partners in preparing and protecting children in their digital lives, DiGii@School membership includes parent access to their own learning platform full of up-to-date digital parenting know-how.

Curriculum Aligned

In an increasingly digital world, it is critical for every child to learn the skills, attitudes and behaviours of digital citizenship, self-protection, and responsible use of technology. For all year levels, digital safety and wellbeing is addressed explicitly in learning areas and in general capabilities.

Learning Areas

- Health and Physical Education
- Digital Technologies
- Design and Technologies

General Capabilities

- ICT Capability
- Personal & Social Capability
- Ethical Understanding
- Critical & Creative Thinking

Of course, learning within areas and capabilities about online safety and wellbeing has strong cross curricular links, and links to Protective Behaviours and Child Safe Frameworks.

Targeting eSafety & Wellbeing

Digital life competence includes many key skills – from understanding the power and contribution of technologies through to the development of strategies that promote mental wellbeing, moral and ethical behaviours, safety for self and others, and complex relationship management skills.

DiGii@School offers children the opportunity to stack learning and to practise their skills in real-time in a supported environment.

DiGii Social for Year 5 & 6 Students

DiGii Social is a first-in-the-world immersive learning experience for upper primary students. While students play on DiGii Social with their class or year group, our (Artificial Intelligence) Virtual Teacher monitors and educates every keystroke and automatically provides the child with animated learning Tutorials that educate transgressions (Strikes).

Fully automated, the platform deploys a complete curriculum of cyber education and provides teachers with progress reports on curriculum targets and achievements. DiGii Social teaches students the skills to be safe, civil, and savvy in real-time.

YEAR 1-6 CYBER EDUCATION CURRICULUM

Foundation Skills: 16 fully resourced lesson plans per year group.

Year 1 & 2: Protecting ME in a Digital World

The early school years are synonymous with a child's emerging sense of self in the wider world. Digital life competencies and capabilities are developmentally skewed towards 'I' being at the centre of learning.

Y1 & 2 differentiated lesson plans establish a firm foundation of digital safety and wellbeing by upskilling the child starting with self.

Learning Modules: (4 lessons / module / cohort)

- **I AM SAFE ONLINE:** Early warning signs, rules & processes
- **I AM RESPONSIBLE ONLINE:** Critical thinking and responsible decision making
- **I AM KIND ONLINE:** Empathy for self and others
- **I AM STEADY ONLINE:** Emotional self-regulation, calming down

Year 3 & 4: Learning About US in a Digital World

The middle school years require regular own / school device use as part of learning. Increased independent device use at school and home contributes to a rise in social, emotional, and learning issues.

Y3 & 4 differentiated lesson plans explore expanding capabilities from self, to social, to global that prepare, protect, and prevent.

Learning Modules: (4 lessons / module / cohort)

- **ME ONLINE:** Self-awareness and management
- **WE ONLINE:** Social awareness and management
- **US ONLINE:** Being part of the global digital community
- **THEM ONLINE:** Managing threats and opportunities

Skills in Action

Year 5 & 6: Connecting Skills to Practice in a Digital World

In an increasingly digital world, it is critical for every child to learn the skills, attitudes and behaviours of digital citizenship, self-protection, and responsible use of technology. For all year levels, digital safety and wellbeing is addressed explicitly in learning areas and in general capabilities.

DiGii Social provides:

- A live, immersive, and experiential learning platform
